Permanent TSB Group Holdings plc **Country by Country Reporting Schedule** **For the financial year ended 31 December 2020**

Basis of Preparation

Country by Country Reporting (CBCR) requirements are a key component of Capital Requirements Directive (CRD IV). CBCR requirements have been transposed into Irish legislation as Regulation 77 of Statutory Instrument 158 of 2014.

Regulation 77 requires each credit institution to disclose annually, specifically by Member State and by third country in which it has an establishment, the following information on a consolidated basis for the financial year:

- a) Name(s), nature of activities and geographical location;
- b) Turnover;
- c) Number of employees on a full time equivalent basis (FTE);
- d) Profit or loss before tax;
- e) Tax on profit or loss; and
- f) Public subsidies received.

Permanent TSB Group Holdings plc (PTSBGH) is the holding company of Permanent TSB plc (PTSB). PTSBGH is required to comply with Regulation 77.

PTSBGH prepares consolidated financial statements in accordance with International Financial Reporting Standards (IFRS).

The CBCR disclosures are prepared under International Financial Reporting Standards as adopted by the European Union (EU) except as regards the scope of consolidation, which is on a prudential basis consistent with the Group's Pillar 3 Disclosures¹.

The scope of consolidation for the Group is the same for accounting and prudential purposes.

In the disclosures that follow:

1. Country of establishment is defined as the geographical location of the business unit booking the transaction.
2. Turnover comprises net interest income, net fees and commission income, net trading income and net other operating income.
3. The tax paid figure disclosed refers to corporation tax only. The tax paid figure may not directly relate to the accounting profits earned in that year as differences can arise between accounting profit and taxable profit as a result of applying local tax legislation.
4. The tax charge figure includes current tax expenses but does not include deferred taxes or any provisions for uncertain tax liabilities.
5. The number of employees on a full time equivalent basis is reported as the average during the year.
6. Public subsidies are defined to be direct support by the government. It does not include any central bank operations that are designed for financial stability purposes or operations that aim to facilitate the functioning of the monetary policy transmission mechanism. General tax incentives or schemes in line with the European Commission's guidance on State Aid do not fall within the definition of public subsidy for the purposes of CBCR.

Independent auditors' report to the directors of Permanent TSB Group Holdings plc (the "Company")

Report on the audit of the Country-by-Country Reporting Schedule

Opinion

In our opinion, Permanent TSB Group Holdings plc's Country-by-Country Reporting Schedule for the year ended 31 December 2020 has been properly prepared, in all material respects, in accordance with the Basis of Preparation set out on page 2.

We have audited the Country-by-Country Reporting Schedule for the year ended 31 December 2020 which comprises the Country by Country reporting for the year ended December 2020 and the Basis of Preparation.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)"), including ISA (Ireland) 800 and ISA (Ireland) 805, and applicable law. Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the Country-by-Country Reporting Schedule section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Group in accordance with the ethical requirements that are relevant to our audit of the Country-by-Country Reporting Schedule in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter - Basis of preparation

In forming our opinion on the Country-by-Country Reporting Schedule, which is not modified, we draw attention to the Basis of Preparation. The Country-by-Country Reporting Schedule is prepared by the directors for the purpose of meeting the requirements of Regulation 77 of Statutory Instrument 158 of 2014. The Country-by-Country Reporting Schedule has therefore been prepared in accordance with a special purpose framework and, as a result, the Country-by-Country Reporting Schedule may not be suitable for another purpose.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the Group and Company's ability to continue to adopt the going concern basis of accounting included:

- Performing a risk assessment to identify factors that could impact the going concern basis of accounting, including the impact of Covid-19.
- Understanding and evaluating the group's financial forecasts and the group's stress testing of liquidity and regulatory capital. In evaluating these forecasts we considered the Group's financial position, historic performance, its past record of achieving strategic objectives and management's assessment of the likely impact which Covid-19 may have on financial performance, capital and liquidity for a period of 12 months from the date on which the Country by Country Reporting Schedule is authorised for issue.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Group or the Company's ability to continue as a going concern for a period of at least twelve months from the date on which the Country-by-Country Reporting Schedule is authorised for issue.

In auditing the Country-by-Country Reporting Schedule, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the Country-by-Country Reporting Schedule is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Responsibilities for the Country-by-Country Reporting Schedule and the audit

Responsibilities of the directors for the Country-by-Country Reporting Schedule

The directors are responsible for the preparation of the Country-by-Country Reporting Schedule and for the appropriateness of the basis of preparation. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of country-by-country reporting schedule that is free from material misstatement, whether due to fraud or error.

In preparing the Country-by-Country Reporting Schedule, the directors are responsible for assessing the Group and Company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the country-by-country reporting schedule

It is our responsibility to report on whether the Country-by-Country Reporting Schedule has been properly prepared in accordance with the Basis of Preparation.

Our objectives are to obtain reasonable assurance about whether the Country-by-Country Reporting Schedule as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Country-by-Country Reporting Schedule.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the Country-by-Country Reporting Schedule is located on IAASA's website at: https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf. This description forms part of our auditors' report.

Use of this report
